

Ocular Therapeutix™ to Present at the Jefferies Virtual Healthcare Conference

May 29, 2020

BEDFORD, Mass.--(BUSINESS WIRE)--May 29, 2020-- Ocular Therapeutix, Inc. (NASDAQ:OCUL) a biopharmaceutical company focused on the formulation, development, and commercialization of innovative therapies for diseases and conditions of the eye, today announced that Antony Mattessich, President and Chief Executive Officer of Ocular Therapeutix, will participate in a fireside chat at the Jefferies Virtual Healthcare Conference on Thursday, June 4, 2020 at 2:30 PM EDT.

In addition to the presentation, the management team will host investor meetings at the conference. Investors participating in the conference who are interested in meeting with Ocular Therapeutix management should contact their Jefferies representative.

A live webcast of the presentation can be accessed by visiting the Investors section of the Company's website at investors.ocutx.com.

About Ocular Therapeutix, Inc.

Ocular Therapeutix, Inc. is a biopharmaceutical company focused on the formulation, development, and commercialization of innovative therapies for diseases and conditions of the eye using its proprietary bioresorbable hydrogel-based formulation technology. Ocular Therapeutix's first commercial drug product, DEXTENZA® (dexamethasone ophthalmic insert), is FDA-approved for the treatment of ocular inflammation and pain following ophthalmic surgery. Ocular Therapeutix recently completed a Phase 3 clinical trial evaluating DEXTENZA for the treatment of ocular itching associated with allergic conjunctivitis and intends to file an sNDA for this additional indication by the end of 2020. OTX-TP (intracanalicular travoprost insert) is an intracanalicular insert in clinical development for the reduction of intraocular pressure in patients with primary open-angle glaucoma and ocular hypertension. The Company's earlier stage development assets currently in Phase 1 trials include OTX-TIC (travoprost intracameral implant) for the reduction of intraocular pressure in patients with primary open-angle glaucoma and ocular hypertension, OTX-CSI (cyclosporine intracanalicular insert) for the treatment of the signs and symptoms of dry eye disease and OTX-TKI (axitinib intravitreal implant) for the treatment of retinal diseases. Also, in collaboration with Regeneron, Ocular Therapeutix is currently developing on OTX-IVT (aflibercept suprachoroidal injection), an extended-delivery formulation of aflibercept for the treatment of retinal diseases. Ocular Therapeutix's first product, ReSure® Sealant, is FDA-approved to seal corneal incisions following cataract surgery.
