April 22, 2026

Ocular's Investor Day will take place in New York City, with virtual access available, starting at 2:00 PM ET on Wednesday, June 17, 2026

BEDFORD, Mass., April 22, 2026 (GLOBE NEWSWIRE) -- Ocular Therapeutix, Inc. (NASDAQ: OCUL, "Ocular"), an integrated biopharmaceutical company committed to redefining the retina experience, today announced plans to host an Investor Day on Wednesday, June 17, 2026, in New York City. [Click here](#) to register for the live event, with virtual access available, which will begin at 2:00 PM ET.

The Investor Day will include participation from Ocular Therapeutix senior leadership and prominent retinal disease key opinion leaders. Additional details will be provided in advance of the event.

A live webcast of the presentation will be available on the "Events and Presentations" section of the Company's website. A replay of the webcast will be archived for at least 30 days following the presentation.

About Ocular Therapeutix, Inc.

Ocular Therapeutix, Inc. is an integrated biopharmaceutical company committed to redefining the retina experience. AXPAXLI™ (also known as OTX-TKI), Ocular's investigational product candidate for retinal disease, is an axitinib intravitreal hydrogel based on its ELUTYX™ proprietary bioresorbable hydrogel-based formulation technology. AXPAXLI is currently in Phase 3 clinical trials for wet age-related macular degeneration (wet AMD), and diabetic retinal disease, including non-proliferative diabetic retinopathy (NPDR).

Ocular's pipeline also leverages the ELUTYX technology in its commercial product DEXTENZA®, an FDA-approved corticosteroid for the treatment of ocular inflammation and pain following ophthalmic surgery in adults and pediatric patients and ocular itching associated with allergic conjunctivitis in adults and pediatric patients aged two years or older, and in its investigational product candidate OTX-TIC, which is a travoprost intracameral hydrogel that has completed a Phase 2 clinical trial for the treatment of open-angle glaucoma or ocular hypertension. Ocular is currently evaluating next steps for the OTX-TIC program.
